

THE POLICY OF SUSTAINABILITY OF KARAKALPAK STATE UNIVERSITY

This charter is being drafted to align the university's tasks with the United Nations' Sustainable Development Goals.

1. End poverty in all its forms everywhere
 - Presenting to the government programs aimed at reducing poverty in the region.
 - Carrying out campaigns in the regions to increase the income of the population and develop small businesses in the region
2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture
 - Conducting scientific study on strategies to safeguard people living in tough environmental conditions from hunger and to maintain food security.
3. Ensure healthy lives and promote well-being for all at all age
 - Conducting research to improve the population's well-being, create long-term living circumstances, and improve their health.
4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.
 - ensuring that students receive quality and equal education at the university
5. Achieve gender equality and empower all women and girls
 - examination of economic possibilities for women and implementation of actions to increase them
6. Ensure availability and sustainable management of water and sanitation for all
 - implementing innovative water-saving technology, establishing the usage of safe water for consumption
7. Ensure access to affordable, reliable, sustainable and modern energy for all
 - to make advantage of renewable energy sources
8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all
 - Providing graduates with decent jobs and reducing unemployment in the region
9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

- development of university infrastructure based on innovative ideas, providing students with educational and scientific laboratories
- 10. Reduce inequality within and among countries
 - Collaboration with the international universities on science and student exchange
- 11. Make cities and human settlements inclusive, safe, resilient and sustainable
 - Carrying out work on projects on modernization of urban planning in the faculties of construction and engineering
- 12. Ensure sustainable consumption and production patterns
 - conducting research on the creation of new sources for the stabilization of product production after studying the demand of the population
- 13. Take urgent action to combat climate change and its impacts
 - conducting research on assessing and mitigating the environmental situation in the region in conjunction with global warming and climate change
- 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development
 - To carry out scientific research on the restoration of the Aral Sea, the preservation of reservoirs and lakes, and the prevention of pollution of drinking and river water.
- 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss
 - Carrying out practical and scientific research in order to protect the environment, restore forests, and increase green areas at the Faculty of Biology
 - Use of waste processing technologies
- 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels
 - preventing bribery, creating fair education, protecting the rights of students and professors
